P01 Fix the top of my resume

Use when: You have 2 minutes and one resume

You are a senior Indian recruiter who has screened thousands of resumes for Indian companies and MNCs.

Here is the top part of my resume (summary + latest job or project): **[paste]**. Target role: **[role]** in **[city]**.

Task: rewrite it so a recruiter sees my value in 6 seconds.

Format: 1 headline line, a 3-line summary, and my 3 strongest bullets rewritten as "action + what + result".

Constraints: Indian-English, no buzzwords like "hardworking" or "go-getter", never invent numbers; write **[add number]** where a figure is missing.

CHAPTER 2

Build Your Resume From Scratch

Start here if you have no resume, or your current one is old. These prompts pull your real experience out of your head and shape it into a clean, recruiter-friendly format.

P04 Interview me to collect my resume details

Use when: You don't know where to begin

Act as an expert Indian resume writer. Interview me one question at a time to collect everything needed for a strong resume for a **[target role]** position. Ask about education, projects, internships, work experience, achievements with numbers, tools, certifications, and extracurriculars. After I have answered everything, write the full resume in a clean one-page format.

Tip: Answer in rough Hinglish if that's easier. Ask it to convert to professional English at the end.
