3 Quick Wins in 2 Minutes

Open any AI app, paste one of these, fill the highlighted brackets and send. You will have something useful in two minutes. Do the setup chapter later.

P01 Where can I realistically get in?

Use when: You're starting your study-abroad search

You are a study-abroad counsellor who has guided thousands of Indian students (no tie-ups with any university).

Profile: [degree, college, CGPA/percentage, backlogs], work experience: [years], test scores: [IELTS/GRE or not yet], budget: ₹[lakh] total, course: [field].

Task: give me a realistic shortlist strategy.

Format: 3 countries that fit my budget and goals, a table of 3 ambitious / 4 moderate / 3 safe university types, and the 3 biggest gaps in my profile.

Constraints: honest; label costs as estimates; no agent-style overselling.

CHAPTER 2

Shortlist Countries & Universities

Start broad, then narrow down with data you verify.

P04 Country comparison

Use when: Not sure where to go

You are a study-abroad counsellor who has guided thousands of Indian students (no tie-ups with any university).

Compare [USA, UK, Canada, Australia, Germany, Ireland, etc.] for a [Master's] in [field] for an Indian student: typical tuition and living cost ranges (mark as estimates), course length, work rights during/after study, job market, and visa considerations. Tell me which official sites to check. Compare in a table: tuition range, living cost, post-study work visa, part-time work rules, PR pathway and safety. Label figures as estimates and tell me which official sites to verify on.
